Student support in Italy: how does

Students in **disadvantaged economic conditions** who satisfy specific criteria of merit may be eligible for a **GRANT**.

The **economical condition** is assessed through an indicator called (Economic Status Index) which considers the student's family income, savings, plus 20% of their real estate value.

The **students' merit** is assessed based on the number of credits obtained in the first year of enrolment: i.e. newly-enrolled students must have 25 credits to receive a grant in the second academic year and 30 credits for the third year.

Eligible **off-campus** students can ask for a room in a hall of residence.

Students receiving the grant do not pay any tuition fees.
